Dear Gold Club ~

As a reminder, the Gold Club has committed to provide a \$25 contribution (up to four times per year) when a special need arises. We are connecting with you now to invite you to help us with two repairs to the van and trailer. I can't tell you how grateful I am for your partnership in ministry.

The Harvest trailer, now three years old, needs some maintenance including fixed trailer brakes, a general grease job and possibly new tires (for sure at least one). In addition to the trailer, we also need to fix the air conditioner on the Harvest van. Though we don't have a firm cost, the approximate cost for both of these maintenance projects totals around \$650-\$700.

Thankfully, outside of one flat tire on the trailer this summer, we had no other hiccups with transportation! The van and trailer are the largest assets Harvest owns and a vital tool needed to go and make disciples. Harvest Teams traveled and served about 52 days of the last two months. What a joy the 23rd summer was!

Coming up in the next month, Harvest will be traveling to lead music in Highland, IL for a community event; in Prophetstown, IL for a church homecoming weekend; and in Westfield, IL for a church revival.

I wish I could put into words the impact this ministry is making in the lives of students, young adults and in my life. Again for this season, I'm watching Jesus transform lives through the power of the Spirit! I can't wait to see what God has in store.

Until then, I want to thank you for your faithfulness as a Harvest Ministry supporter and Gold Club Member. To make your \$25 contribution, you can use the enclosed envelope or go online to harvestministryteams.com/giving/.

Your Servant in Christ,

Tim Price
